Maximum Performance and Stability

As a leader in innovative industrial, mechanical, electrical, and civil construction solutions, MOR PPM (PPM) also provides comprehensive civil construction services.

With an extensive workforce and solid financial resources at our disposal, PPM can deliver a complete range of civil and concrete core functions—including foundations, underground piping installation, and masonry. We also provide demolition, retrofitting, and excavation.

Our expertise helps give you a solid foundation for maximum facility and equipment stability and performance.

One Source for Support through Management

PPM can provide nested on-site crews to perform a variety of civil projects or your day-to-day needs in conjunction with shutdowns. We can also manage subcontractors as part of the large mechanical and electrical construction projects we self-perform. Our industrial civil construction solutions include:

- » Demolition of existing foundations
- » Retrofitting existing foundations to fit new equipment
- » Reinforcing older building foundations
- » Excavation and compaction
- » Installation of underground utilities
- » Engineering form systems
- » Installation of rebar
- » Installation of complex reinforced cast-in-place foundations
- » Placement of precision anchor bolts and embeds
- » Placement and finish of reinforced slab-on-grade
